Morning Sean.

Attached is a Word file that includes the draft comments on the Anchor's transducer data evaluation and their proposal for finalizing the status of the HC&C system. I thought it might be easiest if you had both in a single place for review.

I've also attached the copy of our evaluation of transducer error to provided to NW Natural (i.e., supporting data analysis removed).

I'll plan on following up with Lance on both attachments when I'm back in the office next Tuesday.

Hope everyone has a good weekend.

Dana
